

Position Title: Construction Managers

Position Type: full--time (40 hours a week)

Location: Various Locations (Fresno, CA, San Francisco, CA & Honolulu, HI)

Our firm provides advanced project management, design management, and construction management on large and complex projects nationwide. Projects include but are not limited to public works, airport, and heavy civil/transit projects including rail, bridges, and highways. Candidates must demonstrate first-rate work ethic, strong attention to detail, and the ability to work both independently and as part of a team.

MCK provides a "family" environment of supportive co-workers along with full dental, vision and medical, vacation, sick and Holiday time off.

Job Description:

Manages the project construction contracts as the Client representative. Administers the construction contract; implements quality plans to assure all construction work is completed in conformance to the Contract Documents; implements environmental compliance requirements and procedures; manages schedules, costs, and change orders; assists with Public Outreach efforts; and maintains all construction documentation and records. Prime point of contact between the Contractor and the Client and external stakeholders. Directs the performance of the project CM team and ensures conformance to established policies and procedures for the management of the project.

Requirements/Qualifications:

A minimum of fifteen (15) years of recent experience in construction management related to medium to large complex engineering/construction projects. Demonstrated relevant and requisite experience providing construction management services for a complex project or program including water conveyance, water and wastewater treatment, power distribution, buildings, rail, airports, wayfinding and professional sports.

Salary: Varies (Based on Qualifications)

Please send your detailed resume, including years of experience, training, certificates, and project experience to fmiranda@mckinc.net.
